EXPLANATION OF COLUMNS OF EMERGENCY SERIES T/O's

Column 1 - Organization and position classification titles.

Column 2 - CIA Occupational Grade and GS Code. Headquarters will convert to appropriate military occupational specialty and grade when determining military personnel requirements.

Column 3 - Emergency Series Area Code and position numbers. Asterisks indicate phased requirements as follows:

- * Personnel required on M-Day.
- ** Personnel required not later than M plus 6 months.
- Personnel for positions without asterisk required subsequent to M plus 6 months.

Column 4 - Career Service Designator. Positions designated "ML" indicate those selected as military. Other positions are civilian.

Column 5 - Reserved for Field Planners to indicate those positions which could be filled from current force by entering the appropriate current T/O position number. Slotting by number rather than individual will alleviate changes caused by personnel turnover.

Column 6 - Reserved for Field Planners to specify specific skills required, such as (a) pilot, (b) language, etc.
